Features and benefits

Simple

Automate software installation for zero-touch deployment. Configure ports automatically based on device type. Proactively diagnose and remediate hardware and software issues with Cisco Smart Call Home.

Smart

Consume less power with switch hibernation mode. Reduce traffic disruption due to control plane redundancy across FlexStack-Plus switches. Get application visibility and control with NetFlow Lite to prioritize applications.

Highly secure

The Catalyst 2960-X uses 802.1X for port-based network access control. Enable scalable and dynamic role-based access control with Cisco TrustSec Technology. Protect against IPv6 address theft and malicious attacks with IPv6 First Hop Security.
